As a creative and detail-oriented Single Page Application Developer with over 5 years of experience in the digital marketing industry, I specialize in crafting engaging applications that drive user interaction. My journey began as a digital marketer, which equips me with a unique perspective on user engagement and conversion optimization. I have developed numerous single-page applications using React and Vue.

WORK EXPERIENCE

Digital Marketing Application Developer | Marketing Tech Solutions

Jan 2022 – Present

- Developed engaging single-page applications using React to support digital marketing efforts.
- Collaborated with marketing teams to create interactive features that increased user participation.
- Analyzed user engagement data to drive application design decisions, resulting in a 30% increase in conversions.
- Implemented A/B testing to optimize application performance based on user feedback.
- Worked with designers to ensure a visually appealing and cohesive brand experience.
- Participated in strategy sessions to align application development with marketing goals.

Junior Web Developer | Creative Marketing Agency

Jul 2019 – Dec 2021

- Assisted in developing single-page applications using Vue.js for various marketing campaigns.
- Conducted usability testing to gather user feedback for iterative improvements.
- Collaborated with design teams to create wireframes and prototypes.
- Maintained and updated existing applications to reflect current marketing strategies.
- Documented processes and user flows for future reference and training.
- Engaged in team meetings to discuss project timelines and deliverables.
