

# MICHAEL ANDERSON

## FARM MANAGER

### PROFILE

Dynamic Small Ruminant Specialist with a focus on sustainable agricultural practices and animal welfare. Over a decade of hands-on experience in managing small ruminant operations, with a keen interest in organic farming and regenerative agriculture. Proven track record in enhancing farm productivity through innovative management techniques and sustainable practices. Adept at collaborating with farmers to implement effective breeding and nutrition programs that align with organic standards.

### EXPERIENCE

#### FARM MANAGER

##### Green Pastures Organic Farm

2016 - Present

- Oversaw the daily operations of a 200-acre organic farm specializing in small ruminants.
- Implemented rotational grazing practices that improved pasture health and reduced feed costs.
- Developed and executed breeding programs that increased genetic diversity and productivity.
- Conducted training sessions for staff on organic farming techniques and animal welfare.
- Established partnerships with local markets to promote farm products.
- Monitored animal health and implemented preventative care protocols.

#### LIVESTOCK TECHNICIAN

##### Rural Development Agency

2014 - 2016
