Breeding Program Manager

- San Francisco, CA
- (555) 234-5678
- michael.anderson@email.com

Proactive Small Ruminant Specialist with a keen interest in animal genetics and breeding programs. Over 7 years of experience in managing breeding operations for small ruminants, focusing on enhancing genetic traits and overall herd performance. Skilled in utilizing genetic testing and modern breeding techniques to achieve desired outcomes. Strong advocate for data-driven decision-making in livestock management.

## WORK EXPERIENCE

### Breeding Program Manager | Heritage Livestock Farm

Jan 2022 – Present

- Managed breeding programs for a diverse range of small ruminants.
- Implemented genetic testing protocols to assess breeding stock.
- Analyzed data to optimize breeding strategies and outcomes.
- Developed educational materials on genetic management for farmers.
- Collaborated with veterinarians to ensure animal health during breeding.
- Conducted workshops on the importance of genetic diversity.

### Livestock Geneticist | AgriGen Research Institute

Jul 2019 – Dec 2021

- Conducted research on genetic improvement programs for small ruminants.
- Analyzed genetic data to inform breeding decisions.
- Published findings in scientific journals to share advancements in the field.
- Collaborated with farmers to implement genetic management practices.
- Provided training on genetic testing and selection criteria.
- Engaged in outreach to promote understanding of genetic diversity.

## SKILLS

Animal Genetics Breeding Programs Data Analysis Training Development Research Outreach

## EDUCATION

### Master of Science in Animal Genetics

2012

University of Animal Sciences

## ACHIEVEMENTS

- Increased genetic diversity in breeding stock by 25% in two years.
- Recognized for innovative approaches to livestock genetic management.
- Published multiple articles on advancements in animal genetics.
