MICHAEL ANDERSON

SOFTWARE AUTOMATION ENGINEER

A dynamic Smart Automation Engineer with a strong emphasis on software development and automation integration. Over 5 years of experience in creating innovative software solutions that automate processes across various sectors, including finance and healthcare. Proven expertise in utilizing programming languages such as Python and Java to develop scalable automation applications.

PROFESSIONAL EXPERIENCE

NextGen Solutions

Mar 2018 - Present

Software Automation Engineer

- Developed automation scripts to streamline software testing processes.
- Collaborated with product teams to identify automation needs.
- Implemented CI/CD pipelines to enhance deployment efficiency.
- Conducted code reviews to ensure adherence to best practices.
- Utilized version control systems for project management.
- Trained junior engineers on automation tools and methodologies.

Tech Solutions Group

Dec 2015 - Jan 2018

Junior Software Developer

- Assisted in developing software applications with automation features.
- Participated in requirements gathering sessions with clients.
- Performed testing and debugging of automation scripts.
- Documented software development processes for future reference.
- Engaged in team meetings to discuss project progress.
- Supported the integration of third-party automation tools.

ACHIEVEMENTS

- Reduced testing time by 50% through automation scripting.
- Contributed to a project that won the Best Innovation Award.
- Enhanced application performance by implementing effective automation solutions.
