Progressive Smart Cities Executive with a specialization in public policy and urban governance. Over 11 years of experience in formulating and implementing smart city policies that enhance urban livability and citizen engagement. Adept at bridging the gap between technology and public administration, driving initiatives that foster transparency and accountability in urban governance.

💼 WORK EXPERIENCE

Director of Urban Policy   2020-2023

Smart Governance Institute

- Developed urban policy frameworks that increased citizen engagement in governance by 45%.
- Led advocacy efforts that resulted in new smart city legislation being passed.
- Facilitated stakeholder forums to discuss urban policy challenges.
- Managed research projects analyzing the impact of technology on urban governance.
- Produced policy briefs that informed city council decisions on smart initiatives.
- Collaborated with academic institutions to research urban governance best practices.

Public Policy Analyst   2019-2020

Urban Policy Institute

- Conducted policy analysis on urban technology initiatives and their impacts on communities.
- Engaged with community organizations to promote awareness of smart city policies.
- Developed reports on urban governance trends and implications for local governments.
- Facilitated workshops on effective public engagement strategies.
- Assisted in drafting policy recommendations for urban development projects.
- Analyzed data to inform policy decisions and improve service delivery.

★ ACHIEVEMENTS

- Recognized for outstanding contributions to urban policy at the National Public Policy Forum in 2022.
- Successfully led a campaign that increased public participation in urban planning processes by 30%.
- Received the Excellence in Governance Award for innovative public policy initiatives in 2023.
