MICHAEL ANDERSON

SMART WASTE SYSTEMS DEVELOPER

Strategic Smart Waste Management Specialist with a proven ability to leverage technology and data analytics to enhance waste management practices.

Recognized for creating innovative solutions that not only meet regulatory compliance but also foster sustainability within organizations. Holds a robust background in environmental science and project management, enabling effective collaboration with diverse stakeholders.

PROFESSIONAL EXPERIENCE

TechWaste Solutions

Mar 2018 - Present

Smart Waste Systems Developer

- Engineered smart waste collection systems utilizing IoT technology.
- Conducted feasibility studies for new waste management technologies.
- Partnered with municipalities to implement smart bins.
- Analyzed data to optimize waste collection schedules.
- Provided technical support during system rollouts.
- Evaluated user feedback to enhance system functionality.

WasteWise Consulting

Dec 2015 - Jan 2018

Project Coordinator

- Coordinated multiple waste management projects simultaneously.
- Developed project timelines and monitored deliverables.
- Facilitated communication between clients and project teams.
- Prepared project documentation and reports for stakeholders.
- Conducted site visits to assess project progress.
- Managed project budgets and ensured cost efficiency.

ACHIEVEMENTS

- Developed a smart waste system that increased recycling rates by 35%.
- Honored with the Innovation in Waste Management Award by the National Waste Association.
- Improved operational efficiency by reducing collection costs by 20%.
