EDUCATION

Bachelor of Science in Environmental Technology

Georgia Institute of Technology
2016-2020

SKILLS

- smart technology
- resource recovery
- data analysis
- community engagement
- project management
- sustainability

LANGUAGES

- English
- Spanish
- French

Dedicated Smart Waste Management Specialist with a focus on technological advancements in waste processing and resource recovery. Proven expertise in implementing smart technologies to streamline waste management processes and enhance operational efficiency. Recognized for a strong commitment to environmental stewardship and community engagement. Adept at analyzing waste data to inform strategic decisions and improve waste diversion rates.

💼 WORK EXPERIENCE

Smart Waste Technology Specialist
2020-2023

WasteTech Innovations

- Developed and tested new technologies for waste processing.
- Collaborated with engineers to enhance waste sorting systems.
- Analyzed operational data to identify efficiency improvements.
- Conducted training sessions for staff on new technologies.
- Coordinated pilot projects to assess technology effectiveness.
- Reported on project outcomes and made recommendations for scale-up.

Resource Recovery Coordinator
2019-2020

EcoHarvest Solutions

- Oversaw resource recovery programs for municipal waste.
- Developed strategies to increase recovery rates.
- Engaged with community organizations to promote recycling.
- Monitored compliance with local waste regulations.
- Prepared reports on recovery program performance.
- Collaborated with industry experts to identify best practices.

⭐ ACHIEVEMENTS

- Increased resource recovery rates by 50% through technological innovations.
- Recognized as Employee of the Year for contributions to waste management.
- Implemented a technology pilot that reduced processing time by 30%.
