I am a dedicated Social Evaluation Specialist with over 5 years of experience in the realm of international development. My focus has been on evaluating programs aimed at improving the quality of life in developing countries. I have worked with various NGOs to assess the impact of health, education, and economic development initiatives.

WORK EXPERIENCE

Monitoring and Evaluation Specialist | Global Development Agency   Jan 2022 – Present

- Conducted evaluations of health and education programs in low-income countries.
- Developed monitoring frameworks to assess program effectiveness and sustainability.
- Collaborated with local partners to gather data and implement evaluation strategies.
- Authored reports that informed donor funding decisions and program adjustments.
- Utilized statistical software to analyze impact data and present findings.
- Trained field staff on data collection and evaluation tools.

Program Evaluation Consultant | International Relief Organization   Jul 2019 – Dec 2021

- Evaluated economic development programs aimed at poverty alleviation.
- Worked with beneficiaries to gather qualitative insights on program impact.
- Developed case studies highlighting success stories from implemented programs.
- Facilitated workshops for stakeholders on evaluation methodologies.
- Monitored program implementation to ensure compliance with evaluation standards.
- Engaged with local communities to understand their needs and feedback on initiatives.

SKILLS

Program Evaluation   International Development   Data Analysis   Community Engagement   SPSS   Qualitative Research
