SKILLS

- Health Geography
- GIS
- Data Analysis
- Public Health Policy
- Community Engagement
- Epidemiology

EDUCATION

MASTER OF PUBLIC HEALTH, UNIVERSITY OF HEALTH SCIENCES, 2013

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Developed a health intervention program that improved access to care for 500 low-income families.
- Received the Public Health Achievement Award in 2021 for innovative research.
- Published findings on health disparities in a leading public health journal in 2020.

Michael Anderson

HEALTH GEOGRAPHER

An experienced social geographer with over 9 years in the field of public health, I have specialized in understanding the spatial determinants of health and their impact on community well-being. My work involves applying geographic methods to analyze public health data, identifying health disparities, and advocating for policies that promote health equity.

EXPERIENCE

HEALTH GEOGRAPHER

Public Health Institute

2016 - Present

- Conducted spatial analyses of health data to identify areas of health disparities.
- Collaborated with public health officials to design community health interventions.
- Utilized GIS tools to visualize health trends and inform policy decisions.
- Engaged with community stakeholders to gather input on health program development.
- Presented research findings to health organizations, influencing funding allocations.
- Managed a team of researchers in a longitudinal health study project.

RESEARCH ASSOCIATE

University Health Center

2014 - 2016

- Assisted in research focused on the social determinants of health in urban populations.
- Analyzed demographic data to identify trends in health access and outcomes.
- Utilized statistical software for data analysis and interpretation.
- Contributed to community outreach programs aimed at promoting health awareness.
- Presented research at public health conferences, increasing community engagement.
- Authored articles for health publications, enhancing public understanding of health issues.
