ACHIEVEMENTS

- Led a community-based research project that resulted in a new local health initiative.
- Developed a toolkit for non-profits to enhance their research capacity.
- Received community recognition for outstanding contributions to local research initiatives.

PROFILE

Dynamic Social Research Analyst specializing in community outreach and participatory research methodologies. Proven aptitude for engaging diverse populations to gather insights that drive programmatic changes and enhance service delivery. Expertise in qualitative data collection techniques, including focus groups and interviews, complemented by strong analytical skills to interpret and present findings effectively.

EXPERIENCE

SOCIAL RESEARCH CONSULTANT

Community Engagement Network

2016 - Present

- Facilitated focus groups with community members to identify social service gaps.
- Developed tailored surveys to assess community needs and program effectiveness.
- Collaborated with non-profits to implement participatory research methodologies.
- Utilized NVivo for qualitative data analysis and thematic coding.
- Presented research outcomes to stakeholders, fostering community-based solutions.
- Trained staff on effective data collection techniques and community engagement strategies.

RESEARCH ASSISTANT

Social Policy Institute

2014 - 2016

- Assisted in the design and execution of community surveys.
- Conducted interviews with stakeholders to gather qualitative insights.
- Analyzed data trends and contributed to research reports.
- Supported outreach efforts to enhance community participation in research.
- Engaged with local organizations to disseminate research findings.
- Coordinated logistics for community workshops and presentations.
