WORK EXPERIENCE

Housing Research Analyst

2020-2023

Homeless Outreach Organization

- Conducted research on the effectiveness of housing-first models in reducing homelessness.
- Developed surveys to assess the needs and preferences of individuals experiencing homelessness.
- Collaborated with local governments to design data collection tools for program evaluation.
- Presented findings to community leaders, advocating for policy changes in housing services.
- Managed research projects, ensuring adherence to ethical guidelines and timelines.
- Authored reports that informed funding decisions for homelessness initiatives.

Research Coordinator

2019-2020

Community Development Agency

- Coordinated research initiatives focused on homelessness and housing insecurity.
- Conducted qualitative interviews to gather insights on barriers to stable housing.
- Engaged with community stakeholders to ensure research relevance and applicability.
- Authored research reports that guided funding decisions for housing programs.
- Facilitated workshops to disseminate research findings to local organizations.
- Maintained databases for tracking client outcomes and research metrics.

ACHIEVEMENTS

- Received the Housing Research Award for excellence in homelessness research.
- Increased community participation in housing studies by 45% through outreach initiatives.
- Published influential articles in housing policy journals, enhancing visibility in the field.
