# MICHAEL ANDERSON

## BACKEND DEVELOPER

Highly skilled Software Developer with over 6 years of experience in backend development, specializing in Java and Spring Framework. Strong expertise in designing and implementing robust server-side applications, with a focus on performance and scalability. Experienced in working with relational databases and optimizing queries for high availability. Demonstrated ability to work collaboratively with front-end developers to integrate user-facing elements with server-side logic.

## **PROFESSIONAL EXPERIENCE**

### **Global Tech Solutions**

*Mar 2018 - Present*

Backend Developer

- Designed and developed RESTful APIs for various applications using Java and Spring.
- Optimized database queries, improving response times by 50%.
- Collaborated with front-end teams to ensure seamless integration of applications.
- Implemented security measures to protect sensitive data and comply with industry standards.
- Conducted performance tuning and monitoring of server-side applications.
- Participated in code reviews and contributed to the improvement of coding standards.

### **Innovative Software Co.**

*Dec 2015 - Jan 2018*

Software Developer

- Developed server-side applications using Java and Spring Boot frameworks.
- Worked closely with DevOps to implement CI/CD pipelines.
- Created comprehensive documentation for API endpoints and system architecture.
- Participated in Agile ceremonies and contributed to sprint planning.
- Resolved issues and bugs reported by QA teams in a timely manner.
- Mentored junior developers on best practices and coding standards.

## **ACHIEVEMENTS**

- Improved API performance by 60% through optimization techniques.
- Received recognition for outstanding contributions to a major project delivery.
- Awarded Employee of the Quarter for innovative problem-solving skills.
