SKILLS

- AWS
- Azure
- Docker
- Kubernetes
- Java
- RESTful APIs
- Git

EDUCATION

BACHELOR OF SCIENCE IN CLOUD COMPUTING, CLOUD UNIVERSITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Successfully reduced operational costs by 20% through cloud optimization.
- Developed a cloud application that improved service delivery times by 30%.
- Received commendation for innovative solutions in a high-stakes project.

Michael Anderson

CLOUD SOFTWARE DEVELOPER

Motivated Software Developer with 3 years of experience in cloud-based solutions, specializing in AWS and Azure. Adept at designing and deploying scalable applications that utilize cloud technologies to enhance business operations. Knowledgeable in containerization technologies such as Docker and Kubernetes, enabling efficient application deployment and management. Strong analytical skills and a proactive approach to problem-solving, with a commitment to continuous improvement.

EXPERIENCE

CLOUD SOFTWARE DEVELOPER

CloudTech Innovations

2016 - Present

- Designed and implemented cloud-native applications using AWS services.
- Collaborated with DevOps teams to automate deployment pipelines using Docker.
- Monitored application performance and optimized resources for cost efficiency.
- Conducted training sessions on cloud technologies for team members.
- Developed RESTful APIs to integrate cloud applications with existing systems.
- Participated in architecture discussions to ensure scalability and reliability.

JUNIOR CLOUD DEVELOPER

Tech Solutions Group

2014 - 2016

- Assisted in the development of cloud applications using Azure services.
- Participated in the migration of legacy applications to cloud platforms.
- Documented processes and best practices for cloud development.
- Collaborated with cross-functional teams to gather requirements and deliver solutions.
- Implemented monitoring tools to track application performance.
- Contributed to team meetings to discuss project progress and challenges.
