EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE, STATE UNIVERSITY

ACHIEVEMENTS

- Achieved a 95% student satisfaction rating in course evaluations.
- Successfully placed 80% of graduates in tech roles within three months of completion.
- Received 'Innovative Educator' award in 2021 for curriculum innovation.

PROFILE

Results-oriented Software Development Educator with 8 years of experience in technology and education sectors. Specializing in hands-on coding bootcamps, I have successfully trained over 500 students, equipping them with essential programming skills for the job market. My teaching philosophy revolves around active learning and real-world application, fostering an environment where students can thrive through collaboration and project-based learning.

EXPERIENCE

LEAD INSTRUCTOR - SOFTWARE DEVELOPMENT BOOTCAMP

Code Academy

2016 - Present

- Designed and delivered an intensive software development bootcamp, focusing on full-stack development.
- Incorporated tools such as Docker and AWS to teach cloud computing and deployment.
- Facilitated group projects that mimicked real-world software development scenarios.
- Assessed student performance with weekly coding challenges and feedback sessions.
- Organized networking events with industry professionals to enhance job placement opportunities.
- Implemented student feedback to continuously improve the curriculum and teaching methods.

SOFTWARE ENGINEER

NextGen Technologies

2014 - 2016

- Developed and maintained web applications using Java and Spring Framework.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Enhanced application functionality, resulting in a 25% increase in user satisfaction ratings.
- Utilized version control systems for project management and collaboration.
- Trained new hires on company coding standards and development practices.
- Participated in product design discussions, contributing to software architecture decisions.
