EDUCATION

MASTER OF SCIENCE IN SOFTWARE ENGINEERING, TECH UNIVERSITY

ACHIEVEMENTS

- Led a project recognized for achieving a 'Best Practices' award in cloud technology.
- Increased system uptime to 99.99% through effective monitoring and maintenance strategies.
- Improved team delivery speed by implementing Agile methodologies, resulting in a 25% reduction in project timelines.

PROFILE

Results-driven Software Development Engineer with over 8 years of experience in full-stack development. Specializing in creating robust applications that improve operational efficiency and enhance user satisfaction. Extensive experience in working with cloud technologies and implementing DevOps practices, resulting in streamlined software delivery pipelines. Known for strong analytical skills and an ability to solve complex problems with innovative solutions.

EXPERIENCE

SENIOR SOFTWARE ENGINEER

Cloud Solutions Inc.

2016 - Present

- Designed and implemented microservices architecture, reducing application downtime by 60%.
- Led a team of developers in migrating legacy systems to cloud-based solutions, cutting infrastructure costs by 30%.
- Developed automated CI/CD pipelines using Jenkins, decreasing deployment times from hours to minutes.
- Utilized AWS services to enhance application scalability, accommodating up to 1 million users simultaneously.
- Conducted performance tuning and optimization, improving application speed by 40%.
- Collaborated with product managers to define project scope, timelines, and deliverables, ensuring alignment with business goals.

FULL STACK DEVELOPER

NextGen Technologies

2014 - 2016

- Developed responsive web applications using JavaScript frameworks, enhancing user engagement by 50%.
- Implemented RESTful APIs, improving data retrieval efficiency by 35%.
- Worked closely with designers to create intuitive user interfaces, leading to a 20% increase in customer satisfaction.
- Integrated third-party services, expanding functionality and improving service delivery.
- Participated in code reviews and maintained coding best practices, resulting in a 30% reduction in bugs.
- Conducted user training sessions, ensuring smooth adoption of new features and tools.
