ACHIEVEMENTS

- Designed a web application that won a design award for its user interface.
- Increased website engagement by 40% through improved design features.
- Recognized for outstanding contributions to team projects and innovative solutions.

Michael Anderson

UI/UX SOFTWARE ENGINEER

Creative Software Engineer with a unique blend of software development and graphic design skills, boasting 4 years of experience in building visually stunning web applications. I excel in creating user interfaces that not only look great but are also highly functional. My background in design allows me to bridge the gap between technical development and user experience, ensuring that the end product meets the needs of users effectively.

EXPERIENCE

UI/UX SOFTWARE ENGINEER

Design Tech Agency

2016 - Present

- Designed and developed responsive web applications using HTML, CSS, and JavaScript.
- Collaborated with UX researchers to gather user feedback and improve application design.
- Created prototypes and wireframes using Figma to visualize project ideas.
- Implemented accessibility standards to ensure inclusivity in web applications.
- Conducted A/B testing to determine the most effective design solutions.
- Participated in design reviews, providing insights on usability improvements.

WEB DEVELOPER INTERN

Creative Solutions Inc.

2014 - 2016

- Assisted in the development of marketing websites for various clients.
- Learned to apply design principles to enhance user experience on web platforms.
- Participated in client meetings to understand project requirements and goals.
- Contributed to the creation of style guides to maintain brand consistency.
- Developed basic front-end features under the guidance of senior developers.
- Documented design processes and development workflows for team reference.
