SKILLS

- Automotive software
- Infotainment systems
- Agile methodologies
- Diagnostics
- Java
- C++

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, AUTOMOTIVE UNIVERSITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Improved software deployment speeds by 30% through process optimization.
- Awarded 'Best Innovator' for contributions to software modernization projects.
- Published a technical paper on advancements in automotive software development.

Michael Anderson

SOFTWARE MODERNIZATION ENGINEER

Proactive Software Modernization Engineer with 7 years of experience in the automotive industry focusing on improving software systems for vehicle diagnostics and infotainment. Specializes in integrating modern technologies into legacy systems to enhance functionality and user experience. Experienced in working with cross-functional teams to define project requirements and deliver solutions that exceed customer expectations.

EXPERIENCE

SOFTWARE MODERNIZATION ENGINEER

AutoTech Solutions

2016 - Present

- Led modernization efforts for vehicle diagnostic software, resulting in a 35% reduction in troubleshooting time.
- Collaborated with engineering teams to integrate new features into existing infotainment systems.
- Utilized Agile methodologies to enhance project delivery efficiency.
- Conducted testing and validation to ensure software quality and compliance with automotive standards.
- Documented modernization processes to facilitate knowledge transfer and training.
- Provided technical support during the transition to new software systems.

SOFTWARE DEVELOPER

Vehicle Dynamics Corp.

2014 - 2016

- Contributed to the development of software for advanced driver-assistance systems (ADAS).
- Engaged in code optimization that improved system performance by 25%.
- Worked closely with QA teams to ensure product reliability and safety.
- Participated in the design and implementation of user interfaces for in-car applications.
- Assisted in the training of new team members on software development practices.
- Supported the integration of third-party services for enhanced functionality.
