MICHAEL ANDERSON

TEST AUTOMATION SPECIALIST

Detail-oriented Software Test Automation Developer with over 4 years of experience in the health tech industry. Focused on enhancing product quality through effective test automation strategies and rigorous testing methodologies. Proficient in utilizing automated testing tools to identify bugs and ensure compliance with healthcare regulations. Excellent at collaborating with developers and stakeholders to ensure seamless integration of testing processes.

PROFESSIONAL EXPERIENCE

HealthTech Innovations   *Mar 2018 - Present*
Test Automation Specialist

- Developed automated test scripts in Selenium for EHR systems, improving test efficiency by 35%.
- Executed end-to-end testing for new software releases, ensuring compliance with HIPAA regulations.
- Collaborated with cross-functional teams to identify testing requirements and priorities.
- Utilized SQL for database verification and data validation tasks.
- Maintained detailed documentation of testing processes and results.
- Participated in risk assessments to identify potential software vulnerabilities.

MediSoft Solutions   *Dec 2015 - Jan 2018*
Quality Assurance Tester

- Conducted manual testing of healthcare applications, ensuring high-quality deliverables.
- Assisted in the transition to automated testing, leading to a 50% reduction in testing time.
- Designed test cases based on business requirements and user stories.
- Executed performance tests to evaluate application responsiveness under load.
- Provided training and support to team members on testing tools and techniques.
- Engaged in defect triage meetings to prioritize bug fixes and enhancements.

ACHIEVEMENTS

- Improved test automation coverage from 40% to 85% over two years.
- Received recognition for superior performance in software testing.
- Contributed to the successful launch of three major software updates.
