BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, TECH INSTITUTE, 2019

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Increased mobile test automation coverage from 20% to 70% in one year.
- Recognized for outstanding contribution to mobile application quality assurance.
- Successfully launched multiple mobile applications with zero critical defects.

Michael Anderson

MOBILE TEST AUTOMATION ENGINEER

Dedicated Software Test Automation Developer with 3 years of experience focusing on mobile application testing. Proficient in utilizing automation tools such as Appium and Espresso to enhance testing efficiencies. Strong understanding of mobile application lifecycle and best practices for quality assurance. Passionate about improving user experience and application performance through meticulous testing processes.

EXPERIENCE

MOBILE TEST AUTOMATION ENGINEER

AppDev Studios

2016 - Present

- Developed automated test scripts for iOS and Android applications using Appium and Espresso.
- Executed tests to ensure compliance with mobile usability standards and performance benchmarks.
- Collaborated with development teams to identify and resolve defects early in the development process.
- Maintained mobile test environments, ensuring compatibility across multiple devices and operating systems.
- Implemented continuous integration pipelines for automated test execution using GitHub Actions.
- Participated in sprint planning sessions to align testing efforts with project timelines.

QUALITY ASSURANCE TESTER

Mobile Solutions Co.

2014 - 2016

- Conducted manual testing for mobile applications, focusing on functionality and usability.
- Assisted in creating test plans and documentation for QA processes.
- Provided feedback on application usability and performance based on user testing.
- Engaged in defect tracking and reporting using JIRA.
- Collaborated with cross-functional teams to ensure comprehensive test coverage.
- Participated in team meetings to discuss project updates and challenges.
