### SKILLS

- Soil conservation
- Community outreach
- Data collection
- Workshop facilitation
- Collaboration
- Educational material development

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

**BACHELOR OF SCIENCE IN AGRONOMY,  
AGRICULTURAL COLLEGE, 2018**

### ACHIEVEMENTS

- Increased community engagement in soil conservation efforts by 40%.
- Developed a successful training program for local farmers on moisture management.
- Recognized for outstanding contributions to community sustainability initiatives.

### WORK EXPERIENCE

#### SOIL CONSERVATION ADVOCATE

Farmers' Alliance

2020 - 2025

- Promoted soil moisture conservation practices through community outreach initiatives.
- Conducted workshops for farmers on moisture management and sustainable practices.
- Developed educational materials to support soil conservation efforts.
- Collaborated with local governments on soil health improvement projects.
- Monitored soil moisture levels across various community farms.
- Engaged with stakeholders to promote awareness of moisture-related issues.

#### FIELD RESEARCH TECHNICIAN

AgroResearch Group

2015 - 2020

- Assisted in research focused on the effects of soil moisture on different crop varieties.
- Collected soil samples and monitored moisture levels in experimental plots.
- Analyzed data to identify trends in crop performance related to moisture.
- Supported the development of moisture monitoring protocols for research studies.
- Collaborated with senior researchers on project design and implementation.
- Maintained detailed records of all experimental procedures and findings.
