SKILLS

- Solar energy policy
- Community outreach
- Public engagement
- Research analysis
- Communication skills
- Program development

EDUCATION

**B.S. IN ENVIRONMENTAL SCIENCE,
UNIVERSITY OF FLORIDA, 2017**

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Successfully launched a community solar initiative that increased local adoption by 30%.
- Recognized for excellence in community engagement by the Renewable Energy Association.
- Secured funding for educational programs aimed at increasing solar knowledge in underserved communities.

Michael Anderson

SOLAR POLICY ADVOCATE

I am a Solar Physicist with 4 years of experience focused on solar energy policy and community outreach. My work has centered on promoting the adoption of solar technologies among diverse communities and advocating for policy changes that support sustainable energy practices. I have collaborated with local governments and non-profits to develop programs that educate the public about the benefits of solar energy.

EXPERIENCE

SOLAR POLICY ADVOCATE

Community Energy Coalition

2016 - Present

- Developed community programs to educate residents on solar energy benefits and opportunities.
- Worked with local governments to create policies that incentivize solar adoption.
- Conducted outreach events, increasing public engagement in renewable energy discussions.
- Collaborated with stakeholders to identify barriers to solar adoption in low-income areas.
- Created informative materials that simplified solar technology concepts for general audiences.
- Monitored policy changes and reported on their impacts on community solar initiatives.

RENEWABLE ENERGY INTERN

Local Government Office

2014 - 2016

- Assisted in developing renewable energy reports and policy recommendations.
- Participated in community forums to gather public input on solar initiatives.
- Conducted research on solar technology trends and their implications for local policies.
- Supported outreach efforts to promote solar education in schools and community centers.
- Collected data on community energy usage to identify potential solar project sites.
- Collaborated with team members to prepare presentations on renewable energy topics.
