WORK EXPERIENCE

Sound Designer

2020-2023

Cinematic Soundworks

- Designed soundscapes for over 25 films, enhancing narrative through audio.
- Conducted field recordings in diverse environments to capture authentic sounds.
- Collaborated with directors to align audio with visual elements effectively.
- Edited and mixed soundtracks to achieve desired emotional impact.
- Maintained detailed project documentation to ensure clarity and organization.
- Provided technical support for sound equipment during film shoots.

Assistant Sound Engineer

2019-2020

Artistic Audio Productions

- Assisted in sound recording and mixing for various documentary projects.
- Collaborated with directors to understand sound requirements and vision.
- Maintained audio equipment and ensured readiness for shoots.
- Conducted quality assurance checks on recordings to ensure fidelity.
- Supported post-production efforts through audio editing and mixing.
- Participated in team meetings to brainstorm creative audio solutions.

ACHIEVEMENTS

- Received the Best Sound Design award at the International Documentary Festival in 2020.
- Contributed to a documentary that won an Emmy Award for Outstanding Achievement.
- Increased audience engagement by 20% through innovative sound design approaches.
