EXPERTISE SKILLS

- Aerospace Engineering
- Predictive Analytics
- Data Governance
- Team Leadership
- Performance Optimization
- Telemetry Analysis

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Aerospace Engineering, University of Michigan

MICHAEL ANDERSON

LEAD SPACE DATA ANALYST

Strategic Space Data Analyst with a solid foundation in aerospace engineering and data analytics, dedicated to enhancing the operational efficiency of space missions through data-driven insights. Proficient in employing advanced analytical tools and methodologies to assess satellite performance and mission outcomes. Demonstrated capability in leading cross-functional teams to implement data strategies that optimize operational workflows.

PROFESSIONAL EXPERIENCE

Lockheed Martin

Mar 2018 - Present

Lead Space Data Analyst

- Directed data analysis initiatives to enhance satellite mission performance.
- Developed predictive models to assess risks associated with launch operations.
- Collaborated with engineering teams to refine data collection methodologies.
- Presented analytical insights to senior leadership, influencing strategic decisions.
- Managed a team of analysts to streamline data processing workflows.
- Implemented best practices for data governance and quality assurance.

Boeing

Dec 2015 - Jan 2018

Data Analyst

- Analyzed telemetry data to support satellite system design and performance evaluation.
- Utilized statistical techniques to identify trends and anomalies in operational data.
- Contributed to the development of data visualization tools for operational reporting.
- Supported cross-departmental initiatives to enhance data accessibility.
- Maintained comprehensive documentation of data analysis processes.
- Participated in training sessions to enhance team capabilities in data analysis.

ACHIEVEMENTS

- Achieved a 25% improvement in satellite mission success rates through data-driven strategies.
- Recognized as Employee of the Year for outstanding contributions to mission analysis.
- Developed a data monitoring framework that was adopted company-wide.
