MICHAEL ANDERSON

SENIOR POLICY ADVISOR, SPACE OPERATIONS

Accomplished Space Debris Mitigation Specialist with extensive experience in space policy and regulatory frameworks. Demonstrated ability to influence and shape national and international policies related to orbital debris management. Expertise in risk assessment, stakeholder engagement, and the development of comprehensive debris mitigation strategies. Proven track record in fostering collaboration between governmental agencies, private sector stakeholders, and international organizations.

PROFESSIONAL EXPERIENCE

National Aeronautics Agency

Mar 2018 - Present

Senior Policy Advisor, Space Operations

- Advised on the development of national policies for space debris management.
- Engaged with international partners to promote collaborative debris mitigation efforts.
- Conducted impact assessments of proposed regulations on commercial space activities.
- Prepared comprehensive reports for senior government officials on debris risks.
- Facilitated stakeholder meetings to gather input on policy initiatives.
- Monitored compliance with international space treaties and agreements.

Global Space Policy Institute

Dec 2015 - Jan 2018

Policy Analyst, Orbital Debris Management

- Researched and analyzed global trends in space debris management policies.
- Collaborated with industry leaders to develop best practices for debris mitigation.
- Drafted policy recommendations for enhancing international cooperation.
- Presented findings at conferences to influence global policy frameworks.
- Engaged with media to raise awareness of space debris issues.
- Developed educational materials for stakeholders on debris management policies.

ACHIEVEMENTS

- Played a key role in drafting the National Space Policy on debris management.
- Recipient of the Outstanding Service Award for contributions to space policy development.
- Successfully organized an international conference on space sustainability attended by over 200 experts.
