

MICHAEL ANDERSON

VENTURE CAPITAL ANALYST

PROFILE

Innovative Space Investment Analyst with a robust background in venture capital and private equity, specializing in the intersection of technology and space exploration. Demonstrates exceptional ability to identify high-potential investment opportunities within the aerospace sector, leveraging a keen understanding of technological advancements and market dynamics. Proficient in conducting thorough due diligence and financial assessments to inform strategic investment decisions.

EXPERIENCE

VENTURE CAPITAL ANALYST

AstroTech Ventures

2016 - Present

- Evaluated over 50 early-stage space startups, leading to strategic investments that resulted in a portfolio growth of 60%.
- Developed investment thesis reports that informed decision-making for a \$200 million fund.
- Collaborated with entrepreneurs to refine business models and enhance funding proposals.
- Conducted market research to identify emerging trends in space technology, informing investment strategies.
- Facilitated pitch sessions with startup founders, providing constructive feedback and networking opportunities.
- Analyzed exit strategies for portfolio companies, optimizing return on investment.

INVESTMENT ASSOCIATE

Celestial Capital

2014 - 2016

- Assisted in the management of a \$100 million investment portfolio focused on aerospace and defense.
- Conducted comprehensive financial modeling to evaluate potential investments, ensuring alignment with strategic objectives.
- Engaged with industry experts to gather insights on market trends and competitive positioning.
- Participated in negotiations and deal structuring, contributing to successful acquisitions.
- Prepared investment memorandums and presentations for internal and external stakeholders.
- Monitored portfolio performance and provided regular updates to senior management.
