# MICHAEL ANDERSON

## PROGRAM COORDINATOR

Passionate about space exploration and education, I have cultivated a career as a Space Outreach Specialist for over 7 years. My journey began in an academic setting, where I developed curriculum materials for a university outreach program, introducing students to the intricacies of astrophysics and space science. My transition to a non-profit organization allowed me to create diverse programs that engaged underrepresented communities in space education.

## **PROFESSIONAL EXPERIENCE**

### **STEM for All**

*Mar 2018 - Present*

Program Coordinator

- Designed and implemented STEM outreach programs targeting underrepresented communities, benefiting over 2,000 students annually.
- Organized workshops that introduced students to astrophysics concepts through hands-on activities.
- Developed partnerships with local schools to enhance STEM curriculum, resulting in a 25% increase in participation.
- Introduced virtual reality experiences in workshops, which improved student engagement and understanding.
- Managed a team of volunteers, providing training and support for effective program delivery.
- Coordinated field trips to local observatories, inspiring students to consider careers in space science.

### **University of Astrophysics**

*Dec 2015 - Jan 2018*

Curriculum Developer

- Developed curriculum materials for outreach programs that reached over 5,000 students.
- Conducted training sessions for educators on innovative teaching methods in space science.
- Collaborated with faculty to integrate space science topics into general education courses.
- Organized community engagement events to promote the university's outreach initiatives.
- Utilized technology to create interactive online resources for students and teachers.
- Evaluated program effectiveness through feedback surveys, achieving a 90% satisfaction rate.

## **ACHIEVEMENTS**

- Increased outreach program participation by 30% through innovative curriculum design.
- Received recognition from the National Science Foundation for excellence in STEM education.
- Secured funding for outreach initiatives totaling \$100,000 over three years.
