MICHAEL ANDERSON

POLICY RESEARCH ASSOCIATE

Innovative space policy researcher with 5 years of experience in developing and evaluating space-related policies. My expertise lies in the integration of advanced technologies in space exploration and their regulatory implications. I possess a strong analytical skill set, allowing me to assess complex data and formulate effective policy recommendations. My work involves collaboration with aerospace engineers, scientists, and policymakers to ensure that space activities are conducted safely and sustainably.

PROFESSIONAL EXPERIENCE

Aerospace Policy Institute

Mar 2018 - Present

Policy Research Associate

- Conducted research on the implications of new technologies for space policy development.
- Collaborated with engineers to evaluate the safety of proposed space missions.
- Analyzed regulatory frameworks to identify gaps in current space practices.
- Presented research findings to stakeholders, enhancing policy discussions.
- Developed policy briefs that informed decision-makers on emerging technologies.
- Coordinated workshops to foster collaboration between scientists and policymakers.

National Space Council

Dec 2015 - Jan 2018

Research Assistant

- Assisted in the analysis of space policies affecting national security.
- Conducted literature reviews to support policy development efforts.
- Participated in cross-agency meetings to discuss policy implications of emerging technologies.
- Compiled data for reports on national space strategy.
- Engaged with stakeholders to gather insights on policy challenges.
- Supported the preparation of briefings for senior officials on space issues.

ACHIEVEMENTS

- Developed a policy framework for integrating new technologies into space exploration.
- Recognized for exceptional research contributions by the Aerospace Policy Institute.
- Contributed to a national report on the future of space technology and policy.
