

# MICHAEL ANDERSON

## Manufacturing Quality Manager

Detail-oriented Space Sciences Quality Specialist with a focus on manufacturing quality for aerospace components. Over 9 years of experience in quality assurance roles within the aerospace sector, specializing in manufacturing processes and compliance. Proven ability to develop quality standards and ensure adherence throughout production. Strong background in conducting inspections and audits to maintain high-quality output.

### WORK EXPERIENCE

#### Manufacturing Quality Manager 2020-2023

Aerospace Manufacturing Group

- Directed quality assurance operations for aerospace component manufacturing.
- Developed and implemented quality standards and procedures to ensure compliance.
- Conducted regular audits and inspections to identify areas for improvement.
- Led a team of quality inspectors to maintain high-quality output and efficiency.
- Utilized lean manufacturing principles to reduce waste and improve processes.
- Achieved a 20% increase in production efficiency through quality improvements.

#### Quality Assurance Inspector 2019-2020

Celestial Components Inc.

- Inspected aerospace components to ensure compliance with specifications and standards.
- Assisted in the development of quality control plans for manufacturing processes.
- Tracked quality metrics and provided feedback for process improvements.
- Participated in root cause analysis for quality issues.
- Collaborated with production teams to resolve quality concerns.
- Improved inspection accuracy by 15% through enhanced training programs.

### ACHIEVEMENTS

- Led a quality initiative that reduced production defects by 35% over two years.
- Awarded 'Quality Champion' for exceptional contributions to quality management in manufacturing.
- Implemented a training program that improved inspector performance by 20%.
