WORK EXPERIENCE

Aerospace Education Specialist

2020-2023

NASA Jet Propulsion Laboratory

- Developed and implemented STEM education programs for K-12 students.
- Conducted workshops and seminars to promote interest in aerospace careers.
- Collaborated with educators to create curriculum resources for teaching aerospace concepts.
- Engaged with community organizations to increase diversity in STEM fields.
- Presented at national conferences on aerospace education initiatives.
- Evaluated program effectiveness and made recommendations for improvements.

Outreach Coordinator

2019-2020

The Space Foundation

- Coordinated educational outreach programs focused on space exploration.
- Developed partnerships with schools and community organizations to promote STEM.
- Created engaging educational materials to support learning in aerospace topics.
- Facilitated hands-on activities that inspire student interest in engineering.
- Organized events to showcase engineering and technology careers.
- Evaluated outreach programs to assess impact and reach.

ACHIEVEMENTS

- Received the NASA Education Award for excellence in outreach programs.
- Increased student participation in aerospace programs by 40%.
- Published educational resources that have reached thousands of educators nationwide.
