ACHIEVEMENTS

- Successfully reduced the frequency of aggressive behaviors in students by 40% through targeted interventions.
- Recognized for outstanding contributions to student development at the Autism Support Center.
- Developed a sensory room that became a resource for multiple classrooms.

PROFILE

Results-oriented Special Education Behavior Specialist with over 8 years of experience working within a clinical setting to support children with autism spectrum disorder. Expertise in creating and implementing behavior modification programs that promote skill development and reduce maladaptive behaviors. Strong background in conducting assessments and collaborating with families to ensure continuity of care.

EXPERIENCE

BEHAVIOR THERAPIST

Autism Support Center

2016 - Present

- Implemented ABA-based interventions tailored to individual student needs, resulting in significant behavioral improvements.
- Collaborated with parents to develop home-based strategies that reinforced learning and behavior goals.
- Conducted regular assessments to monitor progress and adjust interventions as needed.
- Trained interns and new staff in effective behavior management techniques.
- Facilitated social skills groups to enhance peer interactions among students.
- Developed visual aids and resources to support student learning and engagement.

SPECIAL EDUCATION AIDE

Mainstream Elementary School

2014 - 2016

- Assisted in the implementation of individualized education plans for students with diverse needs.
- Supported classroom teachers in behavior management and instructional strategies.
- Monitored student behavior and provided immediate feedback to encourage positive choices.
- Collaborated with specialists to adapt curriculum and teaching methods for students.
- Participated in professional development workshops focused on special education strategies.
- Created a behavior tracking system to document and analyze student progress.
