EDUCATION

BACHELOR OF ARTS IN EDUCATION,
UNIVERSITY OF ABC

ACHIEVEMENTS

- Recognized for developing a curriculum that led to a 20% increase in student performance on standardized tests.
- Achieved 'Excellence in Curriculum Innovation' award for outstanding contributions to instructional design.
- Successfully launched a new online learning platform that received positive feedback from students and parents.

PROFILE

Results-oriented Special Education Instructional Designer with a solid decade of experience in creating adaptive learning solutions for students with special needs. My expertise lies in developing engaging instructional materials that accommodate various learning styles, ensuring that all students have the opportunity to succeed. I have a strong background in applying evidence-based practices in instructional design, which has led to measurable improvements in student achievement.

EXPERIENCE

SENIOR INSTRUCTIONAL DESIGNER

Future Ready Institute

2016 - Present

- Led the design and development of a comprehensive curriculum for students with autism spectrum disorders.
- Coordinated with special education teachers to create individualized learning plans based on student assessments.
- Utilized interactive technology to enhance learning experiences, boosting student engagement by 35%.
- Trained staff on the effective use of differentiated instruction techniques, leading to increased student satisfaction ratings.
- Conducted regular evaluations of program efficacy, implementing necessary adjustments to improve outcomes.
- Established partnerships with local organizations to enhance resource availability for students and families.

INSTRUCTIONAL DESIGNER

Bright Horizons Academy

2014 - 2016

- Developed engaging digital content for a diverse student population, focusing on accessibility and inclusion.
- Collaborated with educational psychologists to design assessments that accurately reflect student learning.
- Implemented a feedback mechanism for students and parents to improve instructional materials continuously.
- Facilitated training sessions for educators on new instructional technologies, increasing adoption rates significantly.
- Utilized analytics to track student performance trends and adjust curricula accordingly.
- Participated in district-level committees to advocate for improved special education resources.
