Innovative Special Education Policy Researcher with a focus on technology integration in special education. Over the last 5 years, I have combined my passion for technology and education to explore how digital tools can enhance learning outcomes for students with disabilities. My background as a special education teacher informs my research, allowing me to identify practical applications of technology in the classroom.

WORK EXPERIENCE

Technology Policy Researcher | Digital Learning Institute

Jan 2022 – Present

- Conducted research on the impact of assistive technologies in special education.
- Collaborated with educators to develop technology integration strategies.
- Presented findings at educational technology conferences to promote best practices.
- Developed guidelines for schools on implementing digital resources for special education.
- Engaged with stakeholders to advocate for technology funding.
- Authored articles on the benefits of technology for students with disabilities.

Special Education Teacher | Tech Forward Academy

Jul 2019 – Dec 2021

- Implemented technology-based learning activities to engage students.
- Collaborated with IT specialists to ensure accessibility of digital resources.
- Facilitated training for staff on the use of assistive technologies.
- Monitored student progress using digital assessment tools.
- Organized tech fairs to showcase student projects and achievements.
- Advocated for additional technology resources to enhance learning experiences.
