EDUCATION

BACHELOR OF SCIENCE IN EDUCATION TECHNOLOGY, TECH UNIVERSITY, 2015

ACHIEVEMENTS

- Increased student engagement by 60% through the integration of interactive learning technologies.
- Received recognition for innovative contributions to special education from the state education department.
- Developed a tech resource guide for educators that has been adopted by multiple districts.

Dynamic Special Education Support Educator with a focus on integrating technology into the classroom for enhanced learning experiences. With over 6 years of experience, I have successfully utilized various educational technologies to support students with special needs, making learning accessible and engaging. My approach includes collaborating with IT specialists to implement adaptive tools that cater to individual learning styles.

WORK EXPERIENCE

TECHNOLOGY INTEGRATION SPECIALIST

Innovative Learning Academy

2020 - 2025

- Designed and implemented technology-based learning activities for students with disabilities.
- Trained educators on adaptive technologies, resulting in a 50% increase in technology use in classrooms.
- Collaborated with developers to customize educational software for special education needs.
- Conducted workshops for parents on using technology to support learning at home.
- Evaluated the effectiveness of technology integration through student feedback and performance metrics.
- Created a resource library of digital tools for educators and parents.

SPECIAL EDUCATION TEACHER

Tech Forward High School

2015 - 2020

- Developed and implemented individualized lesson plans incorporating technology for diverse learners.
- Facilitated student access to online resources, enhancing research and learning opportunities.
- Monitored student progress through digital platforms, providing timely feedback and support.
- Collaborated with specialists to ensure technology meets the needs of all students.
- Organized tech fairs showcasing student projects and innovations to the community.
- Maintained records of technology use and its impact on student learning outcomes.
