

MICHAEL ANDERSON

Speech Language Pathologist

Compassionate and skilled Speech Language Pathologist with over 9 years of experience working with individuals who have complex communication needs, particularly in the context of developmental disorders. I am dedicated to leveraging my expertise in augmentative and alternative communication (AAC) to promote functional communication for my clients.

WORK EXPERIENCE

Speech Language Pathologist

2020-2023

Inclusive Communication Center

- Assessed communication needs of clients with developmental disorders and created individualized therapy programs.
- Implemented AAC devices and strategies to facilitate communication in daily life.
- Conducted family training sessions to ensure effective use of AAC at home.
- Monitored client progress and adjusted therapy goals based on individual development.
- Collaborated with educators to create supportive communication environments in schools.
- Engaged in community outreach efforts to raise awareness about communication disorders.

Speech Language Pathologist

2019-2020

Developmental Disability Services

- Provided assessment and therapy for individuals with complex communication needs in a clinical setting.
- Developed and implemented individualized communication plans tailored to client needs.
- Utilized technology to enhance communication, including AAC devices and apps.
- Facilitated group therapy sessions focusing on social communication skills.
- Participated in multidisciplinary team meetings to coordinate comprehensive care.
- Trained staff on effective communication techniques for clients with disabilities.

ACHIEVEMENTS

- Increased functional communication skills in 85% of clients using AAC within six months.
- Recognized for excellence in service delivery with a 'Best Practice Award' in 2021.
- Developed a training manual for families on using AAC effectively.
