

MICHAEL ANDERSON

LEAD SPINNING TECHNICIAN

PROFILE

Dynamic and results-driven Spinning Technician with a solid background in mechanical engineering and fiber technology. Expertise in the development of spinning processes that maximize yield and minimize waste. Strong analytical skills applied to optimize production workflows and enhance product quality. Demonstrates a proactive approach in identifying and addressing operational challenges. Committed to fostering a culture of continuous improvement through strategic training and development initiatives.

EXPERIENCE

LEAD SPINNING TECHNICIAN

Premier Fibers Corp.

2016 - Present

- Directed spinning operations, ensuring compliance with production targets and quality standards.
- Streamlined workflow processes, resulting in a 20% increase in production efficiency.
- Conducted regular training sessions focused on best practices and safety.
- Developed maintenance schedules that extended equipment life.
- Collaborated with R&D on fiber blends to enhance product offerings.
- Maintained accurate records of production metrics for management review.

SPINNING MACHINE OPERATOR

Textile Solutions LLC

2014 - 2016

- Operated and maintained spinning machinery to produce various types of yarns.
- Performed quality checks on finished products to ensure compliance with specifications.
- Assisted in troubleshooting mechanical issues to minimize production delays.
- Participated in safety training and implemented best practices.
- Documented production data for performance analysis.
- Worked collaboratively with team members to achieve production goals.

CONTACT

- San Francisco, CA

SKILLS

- Process development
- Mechanical troubleshooting
- Production planning
- Team collaboration
- Quality assurance
- Data management

LANGUAGES

- English
- Spanish
- French

EDUCATION

ASSOCIATE IN APPLIED SCIENCE,
MECHANICAL ENGINEERING
TECHNOLOGY, TECHNICAL COLLEGE OF
TEXTILE MANUFACTURING

ACHIEVEMENTS

- Increased overall production output by 25% over a one-year period.
- Received the Safety Excellence Award for maintaining a zero-incident workplace.
- Implemented a new training program that improved technician skill levels.
