

MICHAEL ANDERSON

IRRIGATION PROJECT MANAGER

PROFILE

Innovative Sprinkler Irrigation Specialist with a robust background in landscape irrigation design and management, possessing over 8 years of experience in optimizing irrigation systems for maximum efficiency. Expertise in employing advanced technology and sustainable practices to ensure water conservation while enhancing the aesthetic appeal of landscapes. Known for exceptional analytical skills, enabling the identification of system inefficiencies and the development of effective solutions.

EXPERIENCE

IRRIGATION PROJECT MANAGER

WaterWise Solutions

2016 - Present

- Oversaw multiple irrigation projects from conception through execution, ensuring client satisfaction.
- Conducted site evaluations to determine irrigation requirements and constraints.
- Implemented water-saving technologies and sustainable practices in system designs.
- Managed project budgets and timelines, consistently meeting deadlines.
- Coordinated with subcontractors and suppliers to secure necessary resources.
- Provided expert consultation to clients on irrigation options and maintenance practices.

LANDSCAPE IRRIGATION DESIGNER

GreenScape Designs

2014 - 2016

- Designed irrigation systems for various residential and commercial landscape projects.
- Utilized CAD software to create detailed system plans and specifications.
- Conducted water usage assessments to inform system design decisions.
- Collaborated with landscape architects to integrate irrigation solutions seamlessly.
- Trained clients on the operation and maintenance of newly installed systems.
- Monitored system performance post-installation to ensure optimal operation.
