-  San Francisco, CA

SKILLS

- Installation
- Maintenance Management
- Risk Assessment
- Compliance
- Team Development
- Performance Analysis

LANGUAGES

- English
- Spanish
- French

EDUCATION

ASSOCIATE OF APPLIED SCIENCE IN MECHANICAL ENGINEERING TECHNOLOGY, TECHNICAL INSTITUTE, 2012

ACHIEVEMENTS

- Improved equipment uptime by 30% through optimized maintenance practices.
- Received commendation for outstanding leadership during a critical project turnaround.
- Implemented an innovative tracking system for maintenance activities, enhancing accountability.

PROFILE

Accomplished Static Equipment Technician with extensive experience in the petrochemical industry, specializing in the installation and maintenance of static equipment. Proven expertise in conducting thorough inspections, performing repairs, and ensuring compliance with environmental regulations. Demonstrates a strong ability to analyze equipment performance data and implement effective solutions that enhance operational efficiency.

EXPERIENCE

STATIC EQUIPMENT MAINTENANCE SUPERVISOR

PetroChem Innovations

2016 - Present

- Supervised a team of technicians in the maintenance of static equipment, ensuring adherence to safety standards.
- Developed maintenance schedules that improved equipment availability by 15%.
- Performed risk assessments and implemented strategies to mitigate potential hazards.
- Led initiatives for the refurbishment of aging equipment, enhancing reliability and performance.
- Coordinated with quality assurance teams to ensure compliance with regulatory requirements.
- Facilitated training workshops for staff on new technologies and maintenance procedures.

STATIC EQUIPMENT TECHNICIAN

Advanced Process Solutions

2014 - 2016

- Executed maintenance tasks on static equipment, focusing on pumps, valves, and storage tanks.
- Monitored equipment performance metrics to identify trends and potential failures.
- Participated in root cause analysis for equipment failures, providing actionable recommendations.
- Assisted in the development of operational procedures to enhance equipment reliability.
- Maintained accurate documentation of maintenance activities and compliance records.
- Collaborated with engineering teams on equipment upgrades and modifications.
