EXPERTISE SKILLS

- Environmental restoration
- Hydrological modeling
- Community engagement
- GIS analysis
- Technical reporting
- Training and development

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Environmental Science, University of Florida, 2016

MICHAEL ANDERSON

STORMWATER MANAGEMENT SPECIALIST

Dynamic Stormwater Drainage Technician with a specialization in environmental restoration and management. Over six years of experience in designing and implementing effective stormwater systems that mitigate ecological impacts while enhancing community resilience. Proven expertise in using modeling software to simulate drainage scenarios and predict outcomes. Recognized for contributions to sustainable urban development and green infrastructure initiatives.

PROFESSIONAL EXPERIENCE

EcoEngineering Solutions

Mar 2018 - Present

Stormwater Management Specialist

- Designed and implemented stormwater management plans for urban redevelopment projects.
- Conducted environmental impact assessments and developed mitigation strategies.
- Collaborated with landscape architects to integrate green roofs and bioswales.
- Monitored and reported on stormwater system performance post-installation.
- Engaged with local communities to foster awareness of stormwater issues.
- Provided training and support to municipal staff on stormwater best practices.

EnviroTech Consulting

Dec 2015 - Jan 2018

Junior Environmental Engineer

- Assisted in the design of stormwater drainage systems for various projects.
- Conducted field surveys and data collection for hydrological modeling.
- Participated in community engagement activities to promote sustainable practices.
- Utilized GIS tools for mapping drainage systems and analyzing data.
- Supported senior engineers in preparation of technical reports.
- Monitored compliance with environmental regulations during project execution.

ACHIEVEMENTS

- Designed a stormwater system that reduced runoff by 20% in a heavily urbanized area.
- Participated in a national conference on sustainable stormwater management.
- Received commendation from the city council for contributions to urban sustainability.
