SKILLS

- Water resource management
- Stormwater treatment
- Environmental compliance
- Community engagement
- Regulatory reporting
- Training and education

EDUCATION

BACHELOR OF SCIENCE IN WATER RESOURCE MANAGEMENT, UNIVERSITY OF WASHINGTON, 2014

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Enhanced stormwater treatment effectiveness by 40% through system redesign.
- Received a community service award for contributions to local environmental initiatives.
- Published a technical paper on stormwater management strategies in industry journals.

Michael Anderson

STORMWATER TREATMENT SPECIALIST

Accomplished Stormwater Drainage Technician with a solid foundation in water resource management and environmental engineering. Over seven years of experience specializing in stormwater treatment and drainage design for urban infrastructures. Proficient in evaluating and enhancing existing systems to meet environmental standards and community expectations. Recognized for the ability to balance technical specifications with practical applications, ensuring project success.

EXPERIENCE

STORMWATER TREATMENT SPECIALIST

WaterWise Engineering

2016 - Present

- Designed and implemented stormwater treatment systems for urban sites.
- Conducted assessments of existing drainage systems for compliance and efficacy.
- Collaborated with environmental agencies to ensure adherence to regulations.
- Utilized mathematical models to predict stormwater runoff and treatment effectiveness.
- Provided community education programs on stormwater management practices.
- Facilitated stakeholder meetings to discuss project impacts and solutions.

ENVIRONMENTAL COMPLIANCE OFFICER

River Management Solutions

2014 - 2016

- Monitored compliance with state and federal stormwater regulations.
- Conducted field inspections and audits of stormwater facilities.
- Prepared compliance reports for regulatory agencies.
- Assisted in the development of stormwater management plans.
- Engaged with community representatives to address stormwater concerns.
- Provided training for staff on regulatory requirements and best practices.
