# MICHAEL ANDERSON

## ELECTRONIC MUSIC ENGINEER

Innovative Studio Engineer with a focus on electronic music production and sound synthesis. This professional possesses a unique blend of technical acumen and artistic vision, enabling the creation of immersive auditory experiences. Renowned for the ability to leverage modern tools and software to manipulate sound in unprecedented ways, the engineer has collaborated with numerous high-profile artists and producers.

## PROFESSIONAL EXPERIENCE

### **Future Sound Lab**

*Mar 2018 - Present*

Electronic Music Engineer

- Designed and produced over 100 electronic music tracks, collaborating with artists globally.
- Utilized advanced software tools such as Ableton Live and Max/MSP for sound design.
- Created custom sound libraries and synth patches to enrich musical compositions.
- Conducted sound experimentation sessions, pushing the boundaries of traditional audio production.
- Facilitated workshops on electronic music production techniques for emerging artists.
- Managed digital audio assets, ensuring efficient storage and retrieval processes.

### **Innovative Audio Works**

*Dec 2015 - Jan 2018*

Sound Designer

- Collaborated with game developers to create immersive soundscapes for interactive media.
- Implemented audio assets into game engines, optimizing performance and quality.
- Conducted field recordings to capture unique sound elements for projects.
- Worked closely with creative teams to align sound design with artistic vision.
- Ensured compliance with industry standards for audio quality and performance.
- Documented sound design processes for future reference and training purposes.

## ACHIEVEMENTS

- Featured in top electronic music publications for innovative sound work.
- Achieved over 1 million streams on a collaborative EP released in 2022.
- Developed a sound library that was adopted by multiple production studios worldwide.
