SKILLS

- risk management
- clinical research
- data analysis
- patient safety
- quality improvement
- training

EDUCATION

BACHELOR OF SCIENCE IN HEALTH SCIENCE, CITY UNIVERSITY

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Developed a safety training program that resulted in a 25% reduction in surgical errors.
- Presented research findings that contributed to new safety guidelines adopted by the hospital.
- Awarded 'Excellence in Research' for contributions to surgical safety studies.

Michael Anderson

RISK MANAGEMENT COORDINATOR

I am a Surgical Safety Specialist with 9 years of experience in surgical risk management and patient safety. My career has been dedicated to developing and implementing safety protocols that ensure the well-being of patients undergoing surgical procedures. I have a strong foundation in clinical research, which allows me to stay current with the latest advancements in surgical safety.

EXPERIENCE

RISK MANAGEMENT COORDINATOR

Premier Surgical Center

2016 - Present

- Identified and analyzed surgical risks to develop mitigation strategies that improved patient safety.
- Conducted training for surgical teams on risk assessment and management protocols.
- Collaborated with quality improvement teams to evaluate surgical outcomes and implement changes.
- Developed risk management plans that decreased incident reports by 15%.
- Facilitated discussions on safety concerns with multi-disciplinary teams.
- Monitored compliance with safety regulations and provided ongoing feedback to staff.

CLINICAL RESEARCH ASSISTANT

University Health Consortium

2014 - 2016

- Assisted in research projects focusing on surgical safety and patient outcomes.
- Collected and analyzed data to identify trends in surgical complications.
- Collaborated with researchers to develop safety protocols based on findings.
- Presented research findings at national conferences to share insights with healthcare professionals.
- Contributed to the publication of articles on surgical safety in peer-reviewed journals.
- Developed educational materials for surgical teams based on research outcomes.
