WORK EXPERIENCE

Agroecologist

2020-2023

Regenerative Ag Solutions

- Designed agroecological systems that improved soil fertility.
- Conducted field trials to assess the impact of regenerative practices.
- Collaborated with farmers to implement sustainable cropping systems.
- Facilitated training sessions on agroecological principles.
- Monitored and evaluated project outcomes for continuous improvement.
- Engaged with local communities to promote regenerative agriculture.

Sustainable Farming Advisor

2019-2020

Farmers' Cooperative

- Provided guidance on sustainable farming techniques to members.
- Conducted workshops on soil health and crop rotation.
- Developed educational materials for farmer training sessions.
- Assisted in the implementation of water conservation practices.
- Monitored crop performance and provided feedback.
- Collaborated with agricultural extension services for resources.

ACHIEVEMENTS

- Implemented a regenerative agriculture pilot project that increased yield by 25%.
- Published a guide on agroecological practices for local farmers.
- Secured grants for community projects totaling \$150,000.
