EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, STATE UNIVERSITY, 2016

ACHIEVEMENTS

- Recognized for achieving a 30% increase in application performance through optimization techniques.
- Received 'Employee of the Month' award for outstanding project contributions.
- Contributed to a team project that won a regional tech innovation award.

PROFILE

Dynamic Systems Developer with over 5 years of experience in building robust applications and enhancing existing systems. Specialized in .NET technologies with a solid understanding of cloud services and microservices architecture. Proven track record of delivering projects on time and exceeding performance benchmarks. Skilled in translating business requirements into technical specifications, ensuring alignment with organizational goals.

EXPERIENCE

SYSTEMS DEVELOPER

Innovatech Solutions

2016 - Present

- Developed enterprise-level applications using ASP.NET and Angular, reducing load times by 40%.
- Designed and implemented microservices that improved scalability and reduced deployment time.
- Enhanced application security by integrating OAuth 2.0 for user authentication.
- Collaborated with product managers to define requirements and create technical specifications.
- Used Azure DevOps for continuous integration and deployment, streamlining workflows.
- Trained new team members on best practices for coding and testing.

JUNIOR SYSTEMS DEVELOPER

Software Solutions Co.

2014 - 2016

- Assisted in the development of web applications using C# and MVC framework.
- Participated in code reviews, providing feedback to improve code quality.
- Documented system changes and updates for internal knowledge base.
- Conducted testing and debugging to ensure optimal functionality.
- Collaborated with designers to enhance user interface and experience.
- Implemented RESTful services to facilitate data exchange between applications.
