Proficient Systems Software Engineer with 4 years of experience in the healthcare industry, focusing on developing software solutions that improve patient outcomes and streamline healthcare processes. My experience includes designing and building applications that integrate with electronic health record systems, ensuring compliance with HIPAA regulations. I thrive in collaborative environments, working closely with healthcare professionals to gather requirements and develop effective solutions.

💼 WORK EXPERIENCE

Healthcare Software Engineer
2020-2023

HealthTech Corp

- Developed software applications for patient management systems that improved administrative efficiency by 25%.
- Collaborated with clinical teams to gather software requirements and deliver tailored solutions.
- Ensured compliance with HIPAA regulations during software development and implementation.
- Conducted user testing to ensure software met the needs of healthcare professionals and patients.
- Implemented data encryption techniques to protect sensitive patient information.
- Participated in Agile sprints to enhance project delivery and responsiveness to changes.

Junior Software Developer
2019-2020

MediSoft Solutions

- Assisted in the development of software for electronic health records, improving data accessibility for providers.
- Engaged in troubleshooting and resolving software bugs to enhance application reliability.
- Contributed to the documentation of software specifications and user manuals for training.
- Collaborated with quality assurance teams to ensure software met healthcare standards.
- Supported the integration of new features based on user feedback and clinical needs.
- Participated in training sessions to enhance knowledge of healthcare technology.

★ ACHIEVEMENTS

- Contributed to a project that improved patient data entry efficiency, reducing errors by 30%.
- Awarded 'Best Team Player' for collaboration on cross-functional projects.
- Successfully implemented a software update that enhanced user navigation for healthcare applications.
