🎓 EDUCATION

Master of Science in Computer Science

University of Technology
2016-2020

★ SKILLS

- Software Development
- Curriculum Design
- Project-Based Learning
- Mentoring
- Coding Languages
- Industry Collaboration

🗛 LANGUAGES

- English
- Spanish
- French

As a passionate Technical Education Instructor with over 9 years of experience, I specialize in teaching computer science and software engineering principles. My extensive background in both teaching and industry allows me to provide a well-rounded education that emphasizes both theoretical knowledge and practical application. I have developed a variety of engaging and interactive learning modules that appeal to diverse learning styles, ensuring that all students can grasp complex concepts.

💼 WORK EXPERIENCE

Computer Science Instructor   2020-2023

Tech Innovators Institute

- Taught courses on software development and programming languages.
- Implemented project-based learning strategies that increased student engagement.
- Conducted code reviews to provide constructive feedback to students.
- Organized hackathons to foster teamwork and creativity among students.
- Established a tech club that promoted extracurricular learning opportunities.
- Collaborated with local tech companies for internships and job fairs.

Software Development Mentor   2019-2020

Code Learning Hub

- Mentored aspiring software developers through one-on-one sessions.
- Developed curriculum for online courses focused on coding best practices.
- Conducted workshops that improved participants' coding skills by 40%.
- Provided resources and tools for continuous learning in software development.
- Created a community forum for peer support and knowledge sharing.
- Facilitated collaboration between students and local tech startups.

★ ACHIEVEMENTS

- Instrumental in increasing student graduation rates by 50% through innovative teaching methods.
- Received the Outstanding Educator Award in 2020 for exceptional contributions to computer science education.
- Published a guide on best practices in software development now used in multiple academic institutions.
