EDUCATION

MASTER OF SCIENCE IN CYBERSECURITY, TECH UNIVERSITY, 2013

ACHIEVEMENTS

- Recognized for leading the initiative that reduced phishing attacks within the organization by 60%.
- Received the 'Trainer of the Year' award for exceptional contributions to cybersecurity education.
- Successfully trained over 500 employees on cybersecurity awareness, resulting in measurable improvements in security practices.

PROFILE

Results-oriented Technical Skills Mentor with a strong background in cybersecurity and risk management. With over 8 years of experience in the IT sector, I have dedicated my career to enhancing cybersecurity awareness and technical skills among diverse teams. My approach focuses on empowering team members through engaging training sessions and real-world simulations.

EXPERIENCE

CYBERSECURITY ANALYST

SecureNet Corp.

2016 - Present

- Conducted risk assessments and vulnerability scans, reducing potential threats by 40%.
- Developed and delivered technical training programs on cybersecurity best practices for staff, leading to a 50% decrease in security incidents.
- Monitored network traffic for suspicious activity, responding promptly to mitigate risks.
- Collaborated with IT teams to enhance security protocols, ensuring compliance with industry regulations.
- Created detailed reports on security incidents and training outcomes, facilitating continuous improvement.
- Designed interactive simulations to test employee response to cyber threats, increasing engagement and knowledge retention.

INFORMATION SECURITY TRAINER

CyberAware Institute

2014 - 2016

- Developed comprehensive training programs on data protection and compliance, leading to a 45% increase in participant certification rates.
- Facilitated workshops on ethical hacking and penetration testing, enhancing practical skills among participants.
- Created a mentorship program connecting experienced cybersecurity professionals with newcomers, fostering a supportive learning environment.
- Produced engaging online courses that reached over 1,000 learners globally.
- Regularly updated course material based on the latest security threats and technologies, ensuring relevance.
- Evaluated participant performance through assessments, providing feedback to enhance learning outcomes.
