

MICHAEL ANDERSON

HEALTHCARE TECHNOLOGY CONSULTANT

PROFILE

Results-oriented Technology Innovation Consultant with 10 years of experience specializing in healthcare technology solutions. I possess a deep understanding of the healthcare landscape, including regulatory compliance and patient engagement strategies. My career has been dedicated to leveraging technology to improve patient outcomes and streamline operations within healthcare organizations. I have successfully led projects that introduced telehealth services and electronic health records (EHR) systems, resulting in improved patient access and efficiency.

EXPERIENCE

HEALTHCARE TECHNOLOGY CONSULTANT

HealthTech Innovations

2016 - Present

- Designed and implemented a telehealth platform that increased patient engagement by 50%.
- Conducted needs assessments and gap analyses to identify opportunities for technology integration in healthcare settings.
- Collaborated with clinical teams to develop workflows that improved the adoption of electronic health records (EHR).
- Managed vendor relationships to ensure compliance with healthcare regulations and data security standards.
- Facilitated training sessions for healthcare staff on new technologies, leading to a 30% reduction in onboarding time.
- Analyzed patient data to identify trends, providing actionable insights to improve service delivery.

IT PROJECT MANAGER

MedSys Solutions

2014 - 2016

- Oversaw the implementation of an EHR system across multiple clinics, improving patient data accessibility by 40%.
- Developed project plans and milestones, ensuring timely completion of critical technology installations.
- Led cross-functional teams in the development of healthcare apps that streamline patient communication.
- Maintained project budgets, achieving a 15% cost reduction through strategic vendor negotiations.
- Provided continuous support and troubleshooting for technology users, enhancing overall satisfaction.
- Conducted regular project reviews and updates with stakeholders to ensure alignment and transparency.
