🎓 EDUCATION

Bachelor of Science in Artificial Intelligence

University of California Berkeley

★ SKILLS

- Machine Learning
- Artificial Intelligence
- Data Analysis
- Algorithm Development
- Team Collaboration
- Technical Documentation

🌐 LANGUAGES

- English
- Spanish
- French

Creative Technology Research Engineer with 6 years of experience in the field of artificial intelligence and machine learning. I specialize in developing algorithms that enhance user interactions and optimize system performance. My strong programming background supports my research endeavors, allowing for the implementation of innovative solutions that address real-world problems. I thrive in collaborative environments, working closely with data scientists and software engineers to translate complex data into actionable insights.

💼 WORK EXPERIENCE

Technology Research Engineer   2020-2023

AI Solutions Inc.

- Developed machine learning models that improved recommendation systems, increasing user satisfaction by 30%.
- Collaborated with data scientists to refine algorithms based on user interaction data.
- Conducted experiments to test new AI methodologies, resulting in significant performance enhancements.
- Presented research findings to internal teams to drive data-informed decision-making.
- Engaged with clients to gather requirements and provide tailored AI solutions.
- Documented research processes and results for knowledge sharing within the organization.

Junior Data Scientist   2019-2020

Innovatech Labs

- Assisted in the development of predictive models for market analysis, improving forecasting accuracy.
- Participated in data preprocessing and cleaning activities to ensure data quality.
- Collaborated with engineers to implement machine learning algorithms into existing systems.
- Engaged in code reviews to maintain coding standards and enhance team productivity.
- Contributed to the creation of technical documentation for new AI projects.
- Supported team members in troubleshooting and resolving technical challenges.

★ ACHIEVEMENTS

- Recognized for pioneering a new approach to user interaction optimization in AI applications.
- Contributed to a project that was awarded 'Best AI Product' at a major tech conference.
- Published articles in industry magazines, sharing insights on AI advancements.
