MICHAEL ANDERSON

LEAD FIBER OPTIC ENGINEER

Versatile Telecommunications Engineer with over 10 years of experience in the telecommunications industry, focusing on fiber optic networks and broadband solutions. Demonstrated ability to design, install, and maintain high-speed fiber optic infrastructure for various clients, including residential and commercial sectors. Strong background in project management, ensuring projects are completed on time and within budget while maintaining quality standards.

PROFESSIONAL EXPERIENCE

Broadband Innovations Inc.

Mar 2018 - Present

Lead Fiber Optic Engineer

- Designed and implemented fiber optic networks that improved internet speed by 50% for clients.
- Managed a team of engineers and technicians during large-scale fiber deployment projects.
- Conducted site assessments to evaluate existing infrastructure and recommend upgrades.
- Developed project timelines and budgets, ensuring efficient resource allocation.
- Collaborated with local authorities to secure permits for new installations.
- Provided training and mentorship to junior engineers in fiber optic technology.

NextGen Networks

Dec 2015 - Jan 2018

Telecommunications Engineer

- Installed and configured broadband equipment for residential and commercial users.
- Performed troubleshooting and maintenance on fiber optic and copper networks.
- Engaged with customers to understand their needs and provide technical support.
- Monitored network performance and implemented improvements to enhance service delivery.
- Documented network architecture and configuration for future reference.
- Participated in community outreach to promote broadband services and education.

ACHIEVEMENTS

- Awarded 'Best Project' in 2019 for a successful city-wide fiber deployment.
- Increased customer satisfaction rates by 40% through improved service delivery.
- Published an article on fiber optic innovations in a leading industry magazine.
