## SKILLS

- Thermal Management
- Electronics Cooling
- CFD
- Data Analysis
- Product Development
- Team Collaboration

## EDUCATION

**BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING, GEORGIA INSTITUTE OF TECHNOLOGY**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Achieved a 30% improvement in thermal performance for flagship products.
- Recognized with 'Outstanding Contribution' award for innovative thermal solutions.
- Contributed to a patent for a novel thermal management system.

# Michael Anderson

## THERMAL ENGINEER

Dedicated Thermal Systems Engineer with 9 years of experience in the electronics industry, focusing on thermal management for high-performance computing systems. Expertise in developing thermal solutions that ensure optimal performance and reliability of electronic components. Demonstrates a strong background in thermal simulation and testing, utilizing tools such as CFD and thermal imaging.

## EXPERIENCE

### THERMAL ENGINEER

TechCool Electronics

2016 - Present

- Developed thermal management solutions for high-performance computing products.
- Utilized thermal simulation software to optimize heat dissipation.
- Collaborated with design engineers to integrate thermal features into products.
- Conducted thermal testing and validation for new product launches.
- Analyzed thermal performance data to drive design improvements.
- Trained engineering staff on thermal design best practices.

### JUNIOR THERMAL SYSTEMS ENGINEER

CoolTech Solutions

2014 - 2016

- Assisted in the thermal design of electronic components and systems.
- Conducted thermal simulations to support product development efforts.
- Collaborated with cross-functional teams on thermal challenges.
- Documented thermal testing results and findings for reports.
- Participated in product improvement initiatives focused on thermal efficiency.
- Supported senior engineers in troubleshooting thermal issues.
